Partner Network Overview

PENNYGRADE | RAZORPAY MERCHANT READINESS PREPARATION

DRAFT - Internal preparation document. Not proof of approval, registration, signed partnership, issued card, or customer transaction.

Current evidence position

No partner count or named active partner is certified by this pack. Existing seeded/sample records are not evidence of a real partnership and must not be included as contracted partners.

Onboarding sequence

Receive enquiry; verify business identity, address and authorised representative; agree the specific member benefit and conditions; execute a written agreement; securely retain its reference; record a member issue contact; then activate the public listing and offer.

Roster fields

Business name and category; address; contact; authorised representative; verification date; signed agreement reference/date; agreed benefit; minimum bill/cap/exclusions; effective and end dates; member issue contact; current status; review date.

Publication control

Application and database safeguards require verification and agreement evidence before activating a partner. Existing rows without these details remain stored but are excluded from public results after the reviewed database migration is applied.

Before external submission: verify every stated fact against current operations and business records. Razorpay and qualified legal/tax advisers make their own determinations.
